

# gitbook部署博客

---

## 基础命令

---

安装GitBook

```
npm install gitbook-cli -g
```

验证

```
gitbook -v
```

安装依赖

```
gitbook install
```

运行

```
gitbook serve
```

打包

```
gitbook build
```

卸载

```
npm uninstall -g gitbook
```

版本

```
$ gitbook -v
```

```
CLI version: 2.3.2
```

```
GitBook version: 3.2.3
```

```
$ node -v
```

```
v14.17.5
```

```
$ npm -v
```

```
6.14.14
```

配置说明

<https://www.gitbook.com>

<https://www.cnblogs.com/zhangycun/p/15099747.html>

参考案例

<https://www.cnblogs.com/fenggedainifei/p/15500749.html>

## 插件配置

---

插件配置

```
book.json
```

```

{
  "title": "无为徐生",
  "language": "zh-hans",
  "links": {
    "sidebar": {
      "github": "https://github.com/scott180/gitbook-blog",
      "xushufa": "https://xushufa.cn"
    }
  },
  "plugins": ["-sharing", "sharing-plus", "lightbox", "page-toc-
button", "expandable-chapters"],
  "pluginsConfig": {
    "sharing": {
      "all": []
    },
    "page-toc-button": {
      "maxTocDepth": 2,
      "minTocSize": 2
    }
  }
}
}

```

插件说明:

**sharing** : 右上角分享

**lightbox** : 点击打开图片

**page-toc-button** : 悬浮目录

**expandable-chapters** : 左侧目录折叠

主题配置

<https://www.npmjs.com/search?q=gitbook-theme>

book.json

```

{
  "title": "书法练习",
  "language": "zh-hans",
  "links": {
    "sidebar": {
      "github": "https://github.com/scott180/calligraphy",
      "xushufa": "https://xushufa.cn"
    }
  },
  "plugins": ["theme-beauty"],
  "pluginsConfig": {
    "theme-beauty": {
      "search-placeholder": "输入关键字搜索",
      "logo": "./logo.jpg",
      "favicon": "./favicon.ico"
    }
  }
}
}

```

开启github pages

1、gitbook build生成\_book目录，将\_book改成docs

2、位置: Setting - GitHub Pages - Save

选择目录docs

发布成功<https://scott180.github.io/gitbook-calligraphy/>

## 常见错误

gitbook -v 报错

```
"cb.apply is not a function"
```

```
Installing GitBook 3.2.3
```

```
(node:6632) MaxListenersExceededWarning: Possible EventEmitter memory leak detected. 11 error listeners added to [TLSSocket]. Use emitter.setMaxListeners() to increase limit
```

参考 <https://www.jianshu.com/p/6221330b36ba>

解决方法

```
E:\ProgramFiles\node-v12.22.9-win-x64\node_global\node_modules\gitbook-  
cli\node_modules\npm\node_modules\graceful-fs\polyfills.js
```

将以下三行注释或删除

```
// fs.stat = statFix(fs.stat)  
// fs.fstat = statFix(fs.fstat)  
// fs.lstat = statFix(fs.lstat)
```

gitbook serve 报错

```
Error: ENOENT: no such file or directory, stat 'E:\Project\github\gitbook-  
blog\_book\gitbook\gitbook-plugin-fontsettings\fontsettings.js'
```

```
Error: ENOENT: no such file or directory, stat  
'D:\projects\github\test\gitbook\_book\gitbook\gitbook-plugin-  
livereload\plugin.js' no such file or directory, stat  
'D:\projects\github\gitbook\_book\gitbook\gitbook-plugin-livereload\plugin.js'
```

参考 [https://blog.csdn.net/yinlongfei\\_love/article/details/84636035](https://blog.csdn.net/yinlongfei_love/article/details/84636035)

解决方法

```
C:\Users\Administrator\.gitbook\versions\3.2.3\lib\output\website\copyPluginAsse  
ts.js 中的112行内容
```

将confirm的true 需要修改为false
